

1.0 Percent Participation Justification Form 2018–19

The *Every Student Succeeds Act (ESSA)* requires each district and charter school to complete and submit a justification when it anticipates exceeding 1.0 percent of students assessed in a subject area (i.e., English Language Arts/Reading, Mathematics, and/or Science) with the NCEXTEND1 alternate assessment. Justifications from each district and charter school will be reviewed by the North Carolina Department of Public Instruction (NCDPI), and follow up actions will be determined based on the information found in the justification document. Staff from the Exceptional Children and Accountability Divisions in each district and charter school should collaborate to provide the following information on the justification document. Responses to Sections 1–4 and the designated signatures are required; it is optional to include additional information (see page 5). This justification document will be publicly posted. As such, the document **must not contain any personally identifiable information**. If necessary, additional pages may be attached to this form.

South Brunswick Charter School will assure that the Individualized Education Program (IEP) teams are adhering to the eligibility criteria as outlined in the Testing Students with Disabilities publication when determining student eligibility for participation in the alternate assessment. This includes ensuring the following: The student must have a current IEP. The student is enrolled in grades 3-5, testing grades offered by the School. The student is instructed using the North Carolina Extended Content Standards in all assessed content areas (i.e. English Language Arts/Reading, Mathematics, and Science). The student has a significant cognitive disability. The student's disability significantly impacts adaptive behaviors, defined as those skills which are essential for someone to live and function independently. The student requires extensive and repeated individualized instruction and support to make meaningful gains. The student uses substantially adapted materials and individualized methods of accessing information in alternate ways.

Does the district or charter school have a process in place to identify and address disproportionality in alternate assessment participation (specifically, among race, gender, or socioeconomic status groups)?

☒ Yes

☐ No

In the 2018-19 school year, the disproportionality occurred in one grade level (5th Grade) which had a total enrollment of 44 students. Therefore, the inclusion of 2 students who were eligible for alternate assessments caused the exceeding of the 1% or less goal.

Section 4: Resources and Technical Assistance

What resources and technical assistance does the district or charter school need from the North Carolina Department of Public Instruction to ensure that students are being assessed using the appropriate assessment?
